

JCU has rolled out the E-cobin system across the Cairns campus

Students can now access their course materials and assignments online.

The E-cobin system is a web-based learning management system (LMS) that provides a central hub for students to access their course materials, assignments, and grades.

It also allows students to communicate with their lecturers and peers, and to participate in online discussions and activities.

The E-cobin system is available to all students enrolled in courses at JCU Cairns.

For more information about the E-cobin system, please contact your course coordinator or the IT support team.

Visit www.jcu.edu.au for more information.
